

SOFTWARE DEVELOPMENT

Specializing in the delivery of e-Business and Business-to-Business (B2B) applications for the highly competitive communications industry, Trigon excels in the rapid development of custom software solutions.

SERVICE OVERVIEW

METHODOLOGY

In cases where custom software development provides the best solution to a business challenge, Trigon partners with clients to ensure a solid understanding of business, functional, and integration requirements. If the custom work contributes to a larger development or integration project, schedules are synchronized. Trigon then uses proven rapid application development techniques to ensure delivery in a timely and cost-effective manner.

TOOLS

Trigon specializes in the design, development and deployment of web-based Operational Support Systems (OSS) and Business Support Systems (BSS) for the communications industry. Trigon delivers solutions using a wide range of development tools and technologies, and is especially proficient delivering e-Business solutions using:

- Enterprise Java Beans (EJB) tools to develop CORBA-compliant UNIX solutions, based on Java2 Enterprise Edition (J2EE), and
- Microsoft COM/.Net technology for delivering Windows-based web solutions.

VENDOR EXPERTISE

Trigon is a skilled Enterprise Java Bean developer and Microsoft Certified Solution Provider.

Trigon also has solid working relationships with the following vendors, and expertise with their hardware and software offerings:

- Network solutions provider Cisco Systems;
- Hardware vendors Sun, Dell, and HP;
- E-Business enablers BEA Systems and Vitria;
- Database solution provider Oracle.

TESTIMONIALS

"Trigon demonstrated its ability to deliver an OSS solution quickly and professionally, which is an absolute necessity within the highly competitive telecommunications marketplace."

President,
Start-up DLEC

"I would not hesitate to utilize Trigon's software development services again, or to recommend Trigon's services to any of my colleagues."

Senior Manager, Internet Services
Large CLEC

"Trigon exceeded all of our expectations. Not only did they meet our aggressive timeline, but they delivered a solid, reliable, scalable product. Our Marketing Group was thrilled with the functionality of the e-Business solution."
